

ABOUT THE NAVY—Dick Hansen, Navy recruiter and 1951 SJS graduate, gives some tips to Jack Armstrong, SJS freshman, about Navy life. Recruiter Hansen has been on campus all week taking applications for those interested in commissions in the various Navy programs.

## President Clark Honored At SJS Alumni Reception

"When I was a boy, I had two passions—books and sports."

Dr. Robert D. Clark revealed this to SJS alumni at a reception in his honor at the San Jose Country Club Tuesday night.

In a speech, the new SJS president declared he has kept up with his passion for books and learning and is now the 18th president of San Jose State.

"Last time I was on this campus was in 1931. Imagine my surprise when I saw how it had grown!" he exclaimed.

He continued to discuss how the campus had not only grown in size, but also in student quality.

"Few people realize what a highly selective student body the California State Colleges have. Only the upper one-third of all high school graduates are accepted. No other state college system is as selective," said the

college administrator from Oregon.

### SCHOLARSHIPS

Yet with the quality of the SJS student body, Dr. Clark lamented that only 417 scholarships are offered for more than 20,000 students.

He appealed to the alumni for many, many small contributions which, summed together, would provide scholarships for more than two per cent of the student body.

"The total cash value of all scholarships this year is only \$58,000," he said. "This is an average of \$140 for each one."

President Clark spoke of the "poignancy" of need as he described the 800 scholarship requests this year.

"Many needy students, realizing the futility of getting scholarship help, just didn't appeal," he said.

One hundred twenty-five alumni leaders listened as President Clark also spoke of the need for research funds.

### RESEARCH PROJECT

"A little will go very far," he said, referring to the employment of a secretary to assist a professor recording research results.

He mentioned an important SJS engineering research project which had to be abandoned last year because of lack of funds.

"Many worthwhile projects never get off the ground because 'seed money' is not available to get them started," Dr. Clark said, shaking his head.

He urged close cooperation between alumni and the college administration to help finance a wide variety of programs to enrich and advance San Jose State, "the oldest public institution of higher learning west of the Mississippi."

### Today's Weather

Fair weather is forecast for today except for some morning low cloudiness. The high will be 75 following a low of 50. Yesterday's thermometer reached a high of 75.

### SJS Program To Begin

## Big Brothers Aid Youth

By CAROLYN CLAUS

Are you looking for fun, friendship and admiration? If so, the Big Brother-Big Sister Program may be just right for you.

Sponsored by the Mexican-American Community Services Project and SJS, the program is aimed at helping local high school students from "Sal Si Puedes."

"Sal Si Puedes" (Spanish for "get out if you can") is an area in East San Jose that has a concentration of low socio-economic groups, a high delinquency rate, a high welfare case load rate and a high dropout rate in schools. It is largely inhabited by Spanish-speaking residents who themselves have given the area this nickname.

Manuel H. Chavez, assistant professor of business at SJS and can-

pus director for the Big Brother-Big Sister Program, said "There is a vital need for college students willing to help some of the disadvantaged high school students who might otherwise become dropouts.

"These teenagers need help, understanding and friendship," he continued. "They need to know that a college is not a mass of buildings with unfriendly faces—that a high school diploma is not beyond their abilities." This is why the Big Brother-Big Sister Program was established last year.

Under the program, any college student can "adopt" a little sister or brother from "Sal Si Puedes."

Also included is a tutoring program, in which volunteers can help one afternoon a week to develop high school students in special

problem areas.

"We work through the high school counselors and try to select students with common interests," Chavez stated.

Last year, University of Santa Clara students took part in a tutoring program at Overfelt High School in San Jose. Chavez termed the initial tutoring attempt as "very successful." "It's been a tremendous experience for both the college and high school students," he continued. "In time, we hope to bring other area colleges into the program."

Students interested in becoming "big brothers" or "big sisters" are invited to attend an orientation session today at 3:30 p.m. in cafeteria room A, or to contact Chavez in FO217.

## Judiciary To Face Overhaul

Student Council has decided it may be time for a complete overhaul of the ASB judiciary system.

Acting on request from Cliff Steele, chief justice, council yesterday appointed a committee to study the entire judicial structure for possible revision.

Lack of communication between the ASB judiciary and the lower judiciary bodies, Steele said, is the main problem.

Steele said he wants legislation to insure that "a person brought before the lower body doesn't receive a penalty that differs diametrically from a penalty imposed by the ASB judiciary."

The lower judicial structure consists of AWS judiciary (Associated Women Students), Panhellenic judiciary, IFC judiciary (interfraternity council) and IDJ (Inter-Dormitory Judiciary).

Council and Steele, agreed that the three-year-old judiciary system could be improved through a thorough revision of its structure.

In other action, council announced that interviews for the three vacant council seats will be conducted next Tuesday from 7 to 9 p.m. in the College Union, 315 S. Ninth St.

Two junior representative posts and one graduate representative seat are open due to recent resignations.

Students interested in the posts may fill out applications in the College Union and sign up for an interview. A 2.25 G.P.A. and clear academic standing is required for any Student Council member.

Bob Pisano, ASB president, announced that in November the newly formed ASB Lecture Committee will officially take over duties from the existing Lecture Committee.

Purpose of the new ASB committee is to give the student body a more active voice in the selection of visiting lecturers, supported by A.S.B. funds.

## Dr. Klaus Citron Presents Lecture On German Youth

"Problems Facing Today's German Youth" is the title of a speech by Dr. Klaus Juergen Citron today at 2:30 p.m. in E327. Dr. Citron is the San Francisco consul for the Federal Republic of Germany.

Dr. Citron's talk will be followed by a question and answer period. Coffee will be served. A German Club meeting will follow the talk.

Dr. Citron's visit is in conjunction with the "Germany: A New Generation" photography exhibit on display in the college library through Oct. 15. The Department of Journalism and Advertising, which set up the exhibit, is co-sponsoring Dr. Citron's talk with the German Club.

# Prominent Demos To Appear In Rally at 9 Instead of Noon

A time change for the Monday arrival of Sen. Hubert Humphrey, Sen. Pierre Salinger and Gov. Edmund G. Brown was announced late yesterday by the SJS Democratic Club, sponsors of their campus appearance.

The three prominent Democrats

will arrive at a rally at 9 a.m. instead of 12 noon, as was previously announced. The rally will take place on the closed portion of Seventh Street between East San Fernando and East San Carlos Streets.

Governor Brown will introduce both senators who will deliver campaign speeches. Local candidates running on the Democratic ticket will also appear with the featured three.

Democratic Club President Les Freund has urged students to volunteer to set up the rally and welcome for the two candidates and the governor. Those interested should contact Freund at 286-3632 or 286-5994.

The vice presidential candidate will arrive in San Jose following a three-day campaign tour through California, including stops in Southern California and the San Joaquin Valley.

He will spend Sunday in San Francisco following an appearance at a Saturday night \$100 a plate fund raising dinner at the Fairmont Hotel.

After the SJS rally, Senator Humphrey will leave for Berkeley for a noon appearance at the University of California.

The first Democratic senator from the state of Minnesota, he is widely known as one of the most prominent fighters in the civil rights battle. As mayor of Minneapolis, he established the first Municipal Fair Employment Practices Commission in 1940, and in 1948 led a successful fight for a strong civil rights plank in the Democratic platform at the Democratic convention.

Senator Salinger has been Presidential press secretary to both John F. Kennedy and Lyndon B. Johnson. He resigned in March to run for senator and was appointed to that post after the mid-summer death of Sen. Claire Engle.

Governor Brown, a native San Franciscan, has served as district attorney for the City and County of San Francisco and for the State of California.

## Campus Speaker Attacks Ballot Issue

By AL MASON

"Proposition 14 is immoral," said Dr. Morris Sanderson yesterday afternoon to an audience of about 40 students. Dr. Sanderson, on leave from his job as a scientist with General Electric, was a guest of the United Campus Christian Ministry.

Dr. Sanderson concentrated his attack on the first paragraph of Proposition 14 on the November ballot, which reads: "Neither the State nor any subdivision or agency thereof shall deny, limit or abridge, directly or indirectly, the right of any person, who is willing or desires to sell, lease or rent any part or all of his real

property, to decline to sell, lease or rent such property to such a person or persons as he, in his absolute discretion, chooses."

Dr. Sanderson interpreted this paragraph as meaning: "Our governmental agencies, state, county and city shall be denied powers to make and enforce laws pertaining to rights in selling or declining to sell real property, and that racial discrimination, among other things, shall be constitutionally justified."

"If Proposition 14 carries, there's absolutely no doubt in my mind that this state will begin to be like Mississippi in housing," charged Dr. Sanderson.

"Proposition 14 is a diabolical scheme to keep minority groups suppressed in this country," Dr. Sanderson alleged. He promised legal tests of the proposed amendment if it passes.

Sanderson was active with "civil rights" groups in Hattiesburg, Mississippi, this summer, working on voter registration, "Freedom Party" registration, "freedom schools," and community centers.

## Mozart's Music Featured Today

Selections from Mozart's operatic arias will be performed today by Dr. Edwin C. Dunning, professor of music, at 11:30 a.m. in Concert Hall. The concert is open to anyone wishing to attend.

Dr. Dunning, a bass, will be accompanied on the piano by Patrick Meierotto, assistant professor of music.

## Hennessy Wins \$200 In Contest

Tom E. Hennessy, promotion manager for the Spartan Daily, received a \$200 scholarship from "Media Agents Client," a semi-weekly advertising magazine, yesterday afternoon at the Sir Francis Drake Hotel, San Francisco.

The scholarship was awarded to Hennessy on the basis of an essay he wrote concerning what he learned during his advertising internship at J. Walter Thompson Co. last summer. He was competing against seven other contestants, including two more SJS students, Janet Braun and Charles J. Gould.

Presentation of the award coincided with the presentation of \$100 scholarships to all eight contestants from the Northern California Council of American Advertising Agencies. The presentation of the \$200 scholarship to Hennessy was made by the publisher of the "Media Agents Client."

The \$100 scholarship was just part of a \$600 scholarship to each student, the rest being given to them this summer while they were working at firms belonging to the council.

## Psychosis Hits Friday Flicks

"The Three Faces of Eve" will be featured at the flicks tomorrow at 7 and 9:30 p.m. in TH55.

The story of a woman whose psychosis causes her to take on a triple personality, "The Three Faces of Eve" stars Joanne Woodward, David Wayne and Lee J. Cobb.

Sponsored by Alpha Phi Omega, national service fraternity, the flicks also will present the beginning of a new serial, "The Mark of Zorro."

Admission is 35 cents.

## World Wire

### VIET NAM GOVERNMENT SHAKEN UP

SAIGON, Viet Nam (UPI)—Vietnamese Prime Minister Mai Gen. Nguyen Khanh yesterday announced a major shakeup in his government. He denied it was intended to head off a military revolt.

Khanh accepted the resignations of two cabinet members, announced the sudden reassignments of two members of his official family, and sent the powerful commander in chief of the armed forces on an indefinite trip abroad.

### INDIAN RAINS CLAIM 700 LIVES

NEW DELHI, India (UPI)—Approximately 700 persons were feared dead Wednesday as heavy rains, floods and cyclones ravaged the state of Andhra in southeastern India.

Reports to the federal capital told of a mounting toll of casualties and heavy property damage.

### ESTES CLEARED OF GOVERNMENT FRAUD

WASHINGTON (UPI)—Agriculture Secretary Orville L. Freeman said yesterday a Senate report on its Billie Sol Estes investigation showed that the government was not defrauded of a dime by the Texas farm manipulator's various get-rich-quick schemes.

Freeman said he welcomed the report of the Senate investigations subcommittee which was mild in its criticism of Agriculture Department dealings with Estes. In a statement, Freeman said:

"The proof of the pudding is in the eating, and this report clearly establishes that Billie Sol Estes did not succeed in defrauding the government of a dime."

### PRESIDENT JOHNSON TO CROSS COUNTRY

WASHINGTON (UPI)—President Johnson will campaign from one coast to the other next week. The White House announced yesterday he will visit North Carolina, Iowa, Illinois, Kentucky, Indiana, Ohio, Louisiana and California.

The schedule includes two stops with his wife, Lady Bird, on her southern whistlestop tour. One is at Raleigh, N.C., Sunday evening, Oct. 6, and the other is at New Orleans, Oct. 9.

On Sunday, Oct. 11, he will fly to San Francisco to take part in a "day early" Columbus Day parade.

## Daily Comment

### Right Foot Forward In Library Expansion

Steps in the right direction are being taken this year to help expand the services of the San Jose State College Library and to meet the needs of students using such facilities in our ever-growing campus of higher education.

Head College Librarian, Miss Joyce Backus, happily reports that the Library has received a special appropriation of \$137,000 this year for the sole purpose of building up the collection of books and research materials to be made available for student use.

It is significant to note that this year's \$137,000 special Library allocation is an impressive 174 per cent increase over last year's \$50,000 special Library allowance. Hence, the total budget for the Library this year, according to Miss Backus, tallies a neat, round-figure of about \$270,000, including the special funds.

This might well be the best \$137,000 that the Library ever spends because the availability of volumes per student at San Jose State College is sadly below the national average. The head librarian reports the figure of 40 books per student as the average availability on a national level for college libraries as compared to San Jose State College's rate of only about 25 volumes per student.

Perhaps this revelation is an answer to the student's complaint that when working on a research paper he found that the college Library could not adequately supply him with all the information he wanted.

However, the situation has not been ignored, and the proper authorities have met the problem head-on. The students can reassure themselves that the Board of Trustees and the state taxpayers (who have really made the funds available in the first place) are all taking an interest in bringing the college Library up to par for the more than 20,000 individuals enrolled here using the Library.

How can the students help this cause? Easy, Miss Backus urges students, who would like to see more books on a certain subject put on the book shelves, to write a note to this effect and to put in it the Library suggestion book or to make the request known to college librarians. The appeal is especially made to graduate students.

With the funds for additional book purchases increased by 174 per cent this year, the college Library is on its way to reaching the level of average availability of books per student, and even if the goal is not reached this year or within the next five years, it is certainly stepping ahead in the right direction.

—S.K.

### Taste and See

A chemical formula or a problem in physics can only be conclusively proved by means of experiment. Likewise, the claims of Christianity can only be proved to the individual through experience. In effect, Christianity says that a personal God exists and that He longs to make Himself known to you in the Person of His Son, Jesus Christ. If you will honestly give Him a chance, Christ will enable you to experience His reality. His life-giving power, and will give you eternal life.

"But God commends his love toward us, in that, while we were yet sinners, Christ died for us." (Romans 5:8)

"... believe on the Lord Jesus Christ, and thou shalt be saved." (Acts 16:31)

"But as many as received Him, to them gave He power to become the sons of God, even to them that believe on His name." (John 1:12)

If the claims of Christianity are true, if, in fact, God does exist and Christ is the only way that we can have a personal relationship with Him, is this not the most supremely important matter in life? Moreover, in view of the testimony of untold millions that Christ has transformed their lives, don't you think that you owe it to yourself to make an honest investigation of the claims of the Bible? Why not read the Gospel of John today and as you read God's Word, pray sincerely for God to reveal Himself to you? You will find that faith which begins as an experiment will truly become an experience.

"O taste and see that the Lord is good: blessed is the man that trusteth in Him." (Psalm 34:8)

### Student Comments On Reeb Article

Editor:

Concerning Mr. Richard Reeb's comments on John Stormer's "None Dare Call It Treason," I wish to draw the former's attention to an article in the Sept. 22 issue of the Christian Science Monitor. I hope this source is considered reliable even to Mr. Reeb's conservative spirit.

A group in Cleveland known as the National Committee for Civic Responsibility (NCCR), consisting of "prominent citizens in Cleveland—both liberal and conservative" decided to investigate the documentation used by Mr. Stormer as well as the source of distribution of his book. It was found that close to 2,600,000 copies have been "circulated nationally," not sold as Mr. Reeb implied, and that the source of circulation consisted of conservative groups, mainly Birchers, on a local level throughout the country.

Possibly this is one reason why Mr. Reeb was disappointed when he did not see it on the "best-seller lists."

The publisher of this book is the Liberty Bell Press which has had but one publication in its history, that being "None Dare Call It Treason."

The NCCR investigated 43 of the documentations in Mr. Stormer's book and concluded that "the book is, at best, an incredibly poor job of research and documentation, and, at worst, a deliberate hoax and a fraud."

"In case after case, the author has subverted those references in the documentation to give a totally erroneous impression and even to say precisely the opposite of what his reference claims."

Throughout the book I noted that every President since FDR, plus every respective administration, was indirectly accused of being affiliated with "known communists" or being dupes of the Communist party. It was my final impression that the mass of educators, church officials and labor leaders were communists and that in Mr. Stormer's opinion what we need is another Joe McCarthy to clean up our country. Of the few who drew no criticism were Barry Goldwater and the Birchers. It discourages me to see such biased material as Mr. Stormer's writings given plugs in the Spartan Daily.

### Pastor Has Praise For Faculty Art

Editor:

The present display in the College Art Gallery is one that I hope no student will miss. As a medium of communication, the current display is one of the most powerful that I have seen on this campus in many years. From Richardson's "Every Boy Wants a Remco Toy," to Leonard Stanley's "Extremist . . ." strong emotions and feelings are being expressed which no viewer can miss.

To say that our culture is one which is producing many reactions of all kinds and that these works express this reaction is an understatement. The "Big New Morality" by Dave Hatch states openly the confusion and "god" of many within our culture.

The works, however, which

struck me hardest were those of Leonard Stanley, especially the "Extremist . . ." work. Here he hits where it hurts the clergyman most with his (Stanley's) association of God and Goldwater. Maybe my religious defensiveness is showing, but in the current political campaign, as politics, one must differentiate the two sides of the American theological fence. The fact that there are many religious groups who see in Goldwater a human messiah cannot be denied, and for this reason the Stanley work is an excellent commentary.

However, the other fact is that there are others of us in quite different religious groups who represent an entirely different theological and political point of view, and who are fighting hard for civil rights, nuclear disarmament, help for the underdeveloped areas both here and abroad. Many of us see this particular campaign as essentially "religious" in the sense that at stake are deep theological issues concerning the nature of man and how he lives in the community and the nature and method of reconciliation among communities. And, even though some of us are Republicans, we simply do not dig Barry's theology!

Dr. Stanley, and other college artists, my hat is off to you for stirring the caldron with this exhibit, for expressing your comments on our current culture and for sensitizing our critical awareness. I just beg of you, don't throw all the Christians into the same generalization!

Don Emmel

Presbyterian Campus Pastor for  
United Campus Christian  
Ministry

### Reeb Book Report Target of Student

EDITOR:

I note that you are not wasting any time to push right-wing Republican propaganda. Here it is, the second week of the fall semester, and you are giving outrageous publicity to one of the foulest books ever written. I refer of course, to "None Dare Call It Treason," a diatribe by one John A. Stormer who unfortunately enough was allowed to graduate from this college, and the obnoxious write-up by Richard Reeb.

Consider this quotation by the editor of Dialogue, a section of that most excellent newspaper, The Christian Science Monitor, September 17, 1964:

"I do not regard (None Dare Call It Treason) as an accurate interpretation of the events (Stormer) describes. I think it gives a false picture of many of our great national leaders. I do not believe these leaders were guilty of treason, or its equivalent. I do not believe our nation is in the dire peril which this or some other books would make out. Such books as Mr. Stormer's, and Mrs. Phyllis Schlafly's 'A Choice Not An Echo,' . . . are vigorous political polemics. It seems to me that they distort and misrepresent history and many American leaders. I believe Senator Goldwater, for example, would more nearly agree with my view than with that expressed in these books. His own opinions have not reflected the positions set forth in these books."

Reeb is foolish to boast that

## Atomic Weapon for China? No Surprise to Soviets

By HENRY SHAPIRO

United Press International

MOSCOW (UPI)—Secretary of State Dean Rusk's disclosure that Communist China may soon explode an atomic device came as no surprise to the Soviets, who helped the Chinese get started in nuclear research.

But Peking's approaching nuclear capability causes problems, some immediate and some long-range, for the Soviet leadership. Diplomats said today that an atom-armed China could bring these changes:

—Greater prestige for Peking in the underdeveloped world, where it is competing with Moscow for influence.

A consequent hardening of the Chinese position in the Sino-Soviet dispute. Any settlement now may depend on more Soviet concessions.

—Production of the arms to

back up Peking's claim that communism can be spread only through violent revolution and war, not economic victories as the Soviet contend.

Some highly placed diplomats believe that Peking would be tempted to make use of atomic weapons once it has them. They recalled Chinese Communist leader Mao Tse-tung's statement that a nuclear war might kill hundreds of millions of people but China, with its 700 million population, would survive and dominate the other survivors.

The Russians appear to feel they are in no immediate danger of a Chinese attack. Mao would have to be far more reckless than he now appears to be to risk a hot war with the much more powerful Soviet Union.

But there is no question that the Russians now regret their role of Dr. Frankenstein in helping create the Chinese nuclear monster.

## Cards Win; Reds Tied

FINAL: PIRATES 1, REDS 0  
16 Innings

The St. Louis Cardinals used batting power and timely pitching by Curt Simmons to defeat the Philadelphia Phillies, 8-5, last night.

Meanwhile, in Cincinnati, the Pittsburgh Pirates and host Reds

were involved in a 0-0 deadlock after 15 innings.

St. Louis will either be in undisputed first place or in a tie with Cincinnati, depending on the outcome of the Reds-Pirates encounter.

St. Louis scored two runs in both the second and third innings and added four more in the fourth. Simmons pitched 6 2/3 innings of no-hit baseball.

The Cardinals seem to be in the driver's seat for the National League flag because of a three-game home series against the New York Mets this weekend. These will be the final three games for the Cards unless a playoff is needed.

San Francisco kept its slim, slim hopes alive with a 2-1 win over Houston yesterday afternoon.

## Freshman Poloists In Narrow Victory Over Atherton, 11-9

The San Jose State freshman water polo team yesterday defeated Menlo-Atherton High School 11-9 in the Spartan Pool, although outscored three goals to one in the last quarter.

Two freshmen from Lick High School in San Jose were among the stars for the victors: Bruce McCall, SJS forward led the team in scoring with four goals. Dan Wood, Spartan goalie, made 10 saves in the second half.

Coach Lee Walton, whose freshman team is undefeated, had praise for several other team members. "Ted Mathewson performed well offensively, and the best defensive effort was turned in by Captain Steve Hoberg.

"The high point of our offensive effort," continued Walton, "was everybody slammed well. Our most concentrated teamwork occurred in front of the offensive cage. Everybody was able to make their break at precisely the right moment.

Thursday, Oct. 1, 1964

SPARTAN DAILY-3

## Spartababe Grid Opener

### Frosh Tackle Tigers

University of Pacific's frosh football team invades Spartan Stadium today at 3 o'clock to battle San Jose State's yearlings.

It is the first of a seven game slate for the Spartababes, although they hold a 13-6 scrimmage win over San Quentin.

Coach John Webb, SJS graduate and former Spartan halfback, is in his first season as head coach succeeding Bob Jones. He says that this year's club will have more depth than teams in the past.

"We have more boys that can play football than ever before," said Webb. With 46 boys on the squad (a record number) including 16 from Santa Clara County (also a record number) the facts bear up his opinion.

At quarterback and flanker positions depth has made naming first stringers impossible.

Webb has two San Jose All-Central Coast quarterbacks fighting it out for the number one spot. Bob Toledo, Lincoln High School star, and Jim Webster, James Lick High School signal caller, are dead even so far, according to Webb.

To show how close they are, both boys tossed 60-yard touchdown passes in San Jose's win over San Quentin.

Flankerbacks Bob Hamilton and Jim Farmer are also waging a battle for first string.

Farmer, a 9.7 dash man, may have won the first string berth, however, after catching one of the TD passes from Toledo in the victory.

"In the line Dale Mowbrader, a 205-pounder from Washington High School in Fremont, has been impressive," said Webb.

The Spartababes will have two tackles weighing over 275 lbs. in Dave Evans and Bill Cronos to give them a weight advantage over most teams they face.

"Defensively Ron Parker, brother of Dennis Parker on the varsity, has been a standout," he added. Ron, like his brother, is a safetyman.

San Jose will be meeting "one of UOP's finest teams ever," according to Webb.

FROSH SCHEDULE

## Chinese Bandits Battle Hi House

"B" league intramural football teams play second round games today at 3:45 p.m.

The Chinese Bandits meet Hi House, the Muffs play the Fugitives and the Lobos battle Army ROTC.

In other games Jo-Mar Hall takes on Air Force ROTC #2 and Juniper Hal tackles the Animals.

Deadline for turn-in of intramural tennis entries is Friday. They may be turned in to MG121.

Those interested in signing up for two-man volleyball have until Oct. 9.

San Jose State's record of national champions is among the most diverse in the U.S. Last year the Spartans gained national team championships in judo and cross-country. They also gained national individual championships in track and golf.

## Cock Fighting an Issue?

By ART SIMBURG

"Kind of pastime fite for a gentleman," was cockfighting according to a contemporary of Henry VIII. Cockfighting, made illegal in the U.S. in 1633 because of excessive betting, has gained a thriving resurgence among sports-minded college students.

If legalized, matches between cocks could provide a source of culturally-rich entertainment, and revenue to promoters. In our case, the state of California. These funds would go to charitable organizations for the benefit of orphans and needy families.

By setting a time limit and providing a referee who would come between the cocks, the likelihood of injury would be lessened.

The cocks, rather than being butchered as other fowl for dining pleasures, would have the opportunity to stand erect and achieve immortality as champions.

Contingent upon official sanction, cockfighting could become a regular campus activity. A round-robin event could determine the living centers with the most spirited cocks. To augment the competition that normally includes only the large living centers, an annual all-comers meet could be established.

Four students commented:

"I think it would be pleasurable," said Sandy Anderson, an independent coed.

Bob Yearry of Phi Sigma Kappa: "It would be great if it didn't get out of hand. If it were feasible for the fraternities and sororities to work together, I'm sure our fraternity would field a winning team." Jenny Graham of Kappa Kappa Gamma: "No, I wouldn't like it. I would have to experience one, however, before I could give a valid answer."

Originally developed for high-performance sports car tires, the SAFETY SHOULDER guarantees unprecedented wet or high speed cornering control as well as gliding the tires smoothly and safely over ridges, ruts, or pavement edges. Such revolutionary performance is made possible because the Safety Shoulder literally carries the tread gripping surface over on to the sidewall.

## WRA Sports Program Set; Archery, Badminton Offered

A new recreation program, sponsored by Women's Recreation Association, WRA, will begin tonight. Students interested in the program should select a sport and attend the first meeting of that group.

Coed archery will meet on Wednesdays at 4:30 p.m. on the dorm field, and volleyball will meet on Tuesdays and Thursdays at 7 p.m. in PER 260. Both sports will continue through November 1.

Badminton will be offered on Wednesdays at 4:30 p.m. and basketball on Tuesdays and Thursdays at 7 p.m. from November 10 to December 10.

Gymnastics and softball will be offered in the Spring.

Additional information and handbooks on the year's recreation ac-

tivities may be obtained from the WRA lounge in the Women's Gym. Participation in the program is free.

## Extension Course In Transportation Scheduled Oct. 5

If a course titled "Principles of Transportation" were given by the SJS extension service, what would it cover?

Students who enroll in the no-credit course at Peter Burnett Junior High School, 850 N. Second St., will find out when the class first meets Oct. 5.

The instructor will be Stanton Gill, manager of the Traffic and Sales Order Dept. of A. G. McKee & Co. in San Francisco.

He has revealed the course will cover selected topics in the history, characteristics and economics of various forms of transportation. It will include a study of freight rates and prices, regulatory agencies and regulations, pipelines, highway, water and air transportation and the alleged "gray area" of transportation.

To enroll in the \$30 course, interested students may contact the Extension Services, 294-6414, ext. 2211, or Dr. Carl L. Butler, professor of management, at the same number, ext. 2181.

## Callahan Speech Featured Tonight At AES Meeting

Accounting majors are invited to attend the first rush function of the year of Alpha Eta Sigma, accountants' honorary society, at 7:30 tonight in cafeteria A and B. T. Michael Callahan, former member, will speak on "Why Students Should Join Alpha Eta Sigma."

Membership in the society is open to all accounting majors who have at least six units of accounting, a 3.0 in accounting course and a 2.0 overall grade point average.

Initiation fee and first year's dues for those deciding to join, according to AES Corresponding Secretary Carla Huston, are \$12.50. Annual dues for those already initiated are \$3.

## WASHINGTONIANS BUY REPORT

**BUYING THE BOOK**—Residents and visitors in Washington come to the Government Printing Office to purchase copies of the Warren Commission report on the assassination of President Kennedy. Most appeared to be buying the cloth-bound edition which costs a bit more.

## State School Enrollment Figures Soar

SAN FRANCISCO (UPI)—California educators braced for enrollment increases but they hadn't expected anything like the figures reported yesterday.

Item: The seven University of California campuses reported a total sign-up of 73,175 full-time students. This was an increase of 13 per cent over last year compared with predicted increases of 3.6 to 4.3 per cent.

Item: A 27 1/2 percent enrollment increase—22 per cent above preliminary projections—was reported by California's 70 junior colleges.

Item: Enrollment in state colleges jumped 108,000 students, an increase of 14 per cent.

To members of the coordinating council for higher education the implications of the figures were tremendous.

Council members expect to receive a technical report Nov. 10 detailing where and when California should build additional facilities to cope with increased college enrollments.

## Aeronautics Dept. Plans 'Get Acquainted' Session

The annual Aeronautics Department get-acquainted meeting will be held in the Aeronautics Laboratory tonight at 7:15.

The future of aeronautics at SJS and pertinent data regarding curriculum will be discussed, according to Thomas E. Leonard, department head.

Attending the meeting will be the student officers of the Society of Automotive Engineers, the American Institute of Aero-

nautics and Astronautics, the Flying 20's and Alpha Eta Rho, the national aviation fraternity. These students will present the objectives and qualifications of their groups.

A film, "No Margin for Error," an aviation safety film, will conclude the program.

## Civil Engineer Speaks Tonight

ASCE, the American Society of Civil Engineers, is holding its second meeting at 8 tonight in E132.

Guest speaker at the meeting will be lawyer-engineer Robert Wilhelm, whose topic will deal with both of these fields.

A registered civil engineer in California, Wilhelm is past president of the Bay County Civil Engineers and Land Surveyors Association. He also holds a bachelor of laws degree from Stanford University.

Noel H. Piercy, ASCE president for the SJS undergraduate chapter, urges that all civil engineering students, faculty, and interested students attend. Coffee will be served.

## Driver Instruction Offered Students; Held Twice Weekly

Any student wishing to take behind-the-wheel driving training free may attend a preliminary meeting at 12:30 p.m. today in IA 228, or contact Dr. Marland Strasser.

This will be the only opportunity to take the instruction this semester, Dr. Strasser said.

SJS students will be coached twice weekly in one-hour sessions. Time is available between the hours of 10:30 to 1:30. The instructors are in training as teachers of driver education in high schools.
